Safe Land Use Planning

Create complete communities that offer a variety of safe, affordable, convenient, and accessible travel choices for all residents.

Post Crash Care

Deliver fast and effective emergency response when collisions do occur, to save lives and improve recovery outcomes.

Safe Road Design

Design, operate and maintain road infrastructure to reduce the risk of collision.

Safe Speeds

Manage operating speeds to reduce the risk and severity of collisions.

Safe Road Users

Road safety is a shared responsibility between the agencies that design, build and maintain roads, and those that use the roads.

Safe Vehicles

Regulate, design and maintain vehicles to minimize the risk and severity of collisions.
